

UTokyo Experience Information Session for Study Abroad at UTokyo 8 December 2021

~USTEP (University-wide Student Exchange Program)~

For students who have decided to study at UTokyo or not yet decided where to do study abroad, join for a lecture by a UTokyo professor and to meet the students who have studied with us as well as UTokyo's regular students. This is an excellent chance to experience what it is like to study at UTokyo.

Schedule of the day

■ Part 1 【5:30pm~6:30pm (JST)】

- Mock Lecture: “Science and Indigenous Rights” by Prof. Yujin Yaguchi,

Graduate School of Interdisciplinary Information Studies

■ Part 2 【6:35pm~7:30pm (JST)】

- Information Session about UTokyo and USTEP
- USTEP Experiences by Former USTEP students from Gadjah Mada University & Seoul National University
- Q & A

■ Part 3 【7:35pm~8:00pm (JST)】

- Interactive Session: Meet and Talk with UTokyo Students

*Spots are limited to 30 students for this session.

The governments and leading scholars of the world, including the U.S., Japan, China and India, are planning to build a large telescope on top of a mountain called Mauna Kea (4207 meters) in the island of Hawai'i. The new telescope will likely allow many new discoveries in science. But many Native Hawaiians are strongly opposed to the telescope plan because they think it destroys their land. What should be done? The lecture explores the complex dynamics of empire, colonialism, science, and indigenous rights. scholarship.
